A brief comparison of two government agencies.

United States Post Office	Wall Street
Neither snow nor rain nor heat nor gloom of night stays these couriers from the swift completion of their appointed rounds.	Greed is Good
Loss: \$2.8 Billion (2008) Loss: \$5.1 Billion (2007) Profit: \$0.9 Billion (2006)	Loss: \$2 Trillion and rising daily. (2008)
Competent	Lost \$2 Trillion
Reasonable salaries	Outrageous salaries
Nice to dogs and taxpayers.	Will foreclose on anyone
No excuses.	It is the Federal Reserve, Alan Greenspan, Fannie Mae, Freddie Mac, the Community Reinvestment Act, poor black people, poor brown people, liberal hippie activists, and Elliot Spitzer's fault. That's not a complete list!

About the Author

John F. McGowan, Ph.D. is a software developer, research scientist, and consultant. He works primarily in the area of complex algorithms that embody advanced mathematical and logical concepts, including speech recognition and video compression technologies. He has many years of experience developing software in Visual Basic, C++, and many other programming languages and environments. He has a Ph.D. in Physics from the University of Illinois at Urbana- Champaign and a B.S. in Physics from the California Institute of Technology (Caltech). He can be reached at jmcgowan11@earthlink.net.
